THERE have been several highway robberies in and around Lexington during the last few months. The only clew to the highwaymen is that one is a tall and other a short negro.

ARRANGEMENTS have been made to receive political news at the Courthouse on Tuesday evening, November 8th. Tickets can be secured at 25 cents each, which entitles you to look pleasant or otherwise as the case may be.

REMEMBER, THE LEDGER prints "Help Wanted," "Lost," "Found," and similar notices not of a business character, free of charge. The only thing we require is that the copy be sent in before 9 o'clock on day of publication.

FIVE Presidents of the United States were elected without the assistance of the state of New York. These were George Washington (first time) in 1789, James Madison in 1816, James Buchanan in 1856, U. S. Grant in 1868, R. B. Hayes in 1876.

WILLIE GRAHAM of the Sixth Ward, employed as a stripper for Ort & Thomas, fell from the second story of the Dodson Building through an elevator shaft to the cellar beneath yesterday. He received injuries to the spine which may prove serious.

ON Smoky creek, Carter county, J. A. Wooley and Charles Webb, who have been enemies for years, met at a dance and began shooting at each other. Both were badly wounded and Jerry Willis was hit by a stray ball. All three are at the point of death.

THE last chance for registration is past. There are some voters who claim they did not know when the regular registration day was. That is no excuse. It was extensively advertised by both parties. If these persons had read THE LEDGER they would not have lost their vote.

WOMEN have ever availed themselves of their sex's privilege of changing their minds, but it remains for a Chicago woman to cap the climax of feminine inconsistency of purpose. She got a divorce from her husband and now that he's dead and he had a paid up life insurance policy she asks to have the divorce set aside that, as a widow, she may enjoy the benefit of the deceased's foresight.

MESSERS. EDMISTON & KINNEMAN are endeavoring to make a success of the Washington Opera-house and are trying to furnish the people a diversified line of attractions that will please all patrons. Early in December one of the greatest of the Frohman attractions, "The Witch," will occupy the boards, and preceding it one of the greatest of the operatic successes of the past two seasons, "Social Session." Bear these dates in mind, for they are big enough for the Fifth Avenue Theater.

SECRETARY FOSTER of the Treasury says: "Early in the campaign I gave it as my opinion that Mr. Harrison would carry every Northern state. I have since modified this to except Nevada. The People's Party may carry that state, but Mr. Harrison will carry all the rest of the North. The registration has practically settled the election. Mr. Harrison is as good as re-elected now. He will not lose a Western state, except, possibly, Nevada, and will carry Indiana, Connecticut, Delaware, and most certainly New York."

Perhaps Known in Mayesville.

Louisville Times—Mrs. Laura Webb, the woman who attempted to throw herself beneath the wheels of a moving L. and N. train yesterday afternoon, appeared in court this morning to answer to the charge of disorderly conduct, and as she was in destitute circumstances work was procured for her by the Charity Organization.

Early Morning Fire.

Fire broke out early this morning in the stable of the Pearce Bros. Milling Co. in the Fifth Ward.

The stable and a shed adjoining were entirely consumed and the branhouse of the mill considerably scorched. About 700 sacks were destroyed, also some feed. The loss will not exceed \$500, with no insurance.

It is supposed the building was set on fire accidentally by some one sleeping in it.

An Uncomfortable Time.

Louisville Times.—Mr. and Mrs. Sidney Drew had rather an uncomfortable time in getting away from Louisville. In the first place, being very anxious to meet an engagement at Evansville last night, they gave the Air Line a lien on their baggage for the transportation of the company.

The company, with the exception of the two principals, left for Evansville yesterday morning. Mr. and Mrs. Drew intended to take the same train, but they missed it. They arrived in Evansville at 10 o'clock last night, two hours after the audience had been dismissed.

Illinois-Kentucky.

From Danville, Ill., Mrs. H. J. Nabors writes: "I have been using your remedies for scrofula and am greatly benefited. My back was almost one solid sore. Two boxes of Dr. Hale's Household Ointment healed it entirely."

From Olive Hill, Ky., Mrs. M. J. Matney writes May 15th, 1892: "My daughter has been afflicted with erysipelas in her eyes from infancy. She is now past 12 years old and one 25 cent box has cured her." It costs no more to get the best. This is the best ointment in the world for general use. Get a box at Power & Reynolds's drugstore.

Philadelphia Students.

Student life in Philadelphia is an ideal one. The Chief of Police in that city issued an edict on Saturday last to the effect that any student giving the "college yell" on the street would at once be arrested. In response to this proclamation on Tuesday 3,500 "yaps" of the medical, art and other schools of the city turned out en masse, and paraded the streets with horns, boom-t-ras, &c., making such another din as was never before heard on earth. The Mayor ordered fifty mounted police to keep track of them in order to save the city. Now the Chief of Police says any student can yell or do anything—that nothing short of the Standing Army would suppress them as a body.

Democratic Oratory.

W. C. Owens made a Democratic speech at the Courthouse last night. His address consumed about three quarters of an hour's time.

It consisted of the same old inconsistencies and baseless assertions that Democratic orators are prone to make use of. He was honest enough, however, to admit that he belonged to a Free-trade party.

It is amazing that Democratic speakers and newspapers are compelled to quote personal compliments that are paid their party's candidates by Republicans. Mr. Owens wound up by telling the audience how Chauncey Depew admired Grover Cleveland.

Mr. Owens is an actor but is not calculated to render his party any service in the way of winning votes.

THERE are twenty-seven young ministers among the students of Georgetown College, and ten states are represented.

THERE will be a big Republican rally, speaking, basket dinner, &c., at Petersburg, Lewis county, on Saturday, November 5th.

EIGHTY-TWO names were added to the list during the three days of supplementary registration, making the total number in the six precincts 1,550.

THIEVES broke into the meat store of A. Pierce on East Third street last night and carried away \$9.50 in money and some choice steaks. An entrance was effected by cutting a hole in the front door.

A Cholera Scare.

A reported outbreak of cholera at Helmetta, N. J., created much excitement in that vicinity. Investigation showed that the disease was not cholera but a violent dysentery, which is almost as severe and dangerous as cholera. Mr. Walter Willard, a prominent merchant of Jamesburg, two miles from Helmetta, says Chamberlain's Colic, Cholera and Diarrhoea Remedy has given great satisfaction in the most severe cases of dysentery. It is certainly one of the best things made. For sale by Power & Reynolds, Druggists.

John P. McCartney To-night.

Republicans should not fail to avail themselves of the opportunity to hear John P. McCartney at the Courthouse to-night.

The meeting is announced to begin at 7:30 o'clock. There are plenty of Republicans this year and the house should be crowded.

Everybody is cordially invited to be present.

AN EXPENSIVE EVENT.

An Estimate of What is Spent During a Presidential Year.

Some one has taken the trouble to ascertain the cost of a Presidential campaign, nominating convention and all included. With what is spent in minor races an enormous total is produced.

A National political convention is an expensive event to the people of the United States; so is the election that follows. A convention for the nomination of President and Vice-President represents an estimated outlay of about fifty cents for each and every voter in the country. The cost of counting the votes cast at a general election is something like \$1.75 for each of the 8,000,000 free-men who will deposit the ballot next week. Computing the totals on a basis of the foregoing estimates, which are deducted from the figures of the last Presidential election, it costs the people of this country about \$22,500,000 to nominate and elect a President. About \$4,000,000 is spent in bringing about the nomination of the Republican and Democratic candidates, respectively, \$500,000 to put a Third party man in the field, and \$14,000,000 will pay for the reception and counting of the votes when the dulcet sound of the slogan has been stilled and the campaign liar laid to rest. In addition to the total amount of \$22,500,000 which is expended for the purpose named, and which can be reckoned as legitimate, at least \$10,000,000 is necessary to secure the proper presentation of the qualifications of the various candidates, the issues of the campaign, etc. This amount is handled, and of course used to the best advantage by National, state, county and municipal committees. Independent political organizations use at least \$5,000,000 more to advance the claims of favored candidates, and individuals themselves disburse a handsome sum in furthering their own personal interests. As there are in the neighborhood of 15,000 persons to be elected to some sort of office from President to Town Constable at the November election, it is fair to assume that each and every one of them will contribute a fair percentage of the various offices they seek. It would be extremely difficult to determine the average amount of individual subscription coming under this head, but \$300 would not be far from the size of it. A candidate for President usually chips in \$10,000, his friends and supporters give liberally, and candidates for other offices give in proportion to their ambition, making \$300 a fair average. This adds \$13,500,000 to the other totals, and brings the whole cost of a Presidential election, legitimate and otherwise, up to the enormous sum of \$51,000,000.

THE largest creamery in the world is in the heart of the city of Chicago. It has a daily capacity of 9,000 pounds of butter and 18,000 pounds of cheese. Everything, of course, is done by machinery. The cream is emptied into an enormous vat by means of a separator, which at the same time discharges the milk into the tanks. In the vats the cream is allowed to stand twenty-four hours in order to acquire the degree of acidity. Then it is conducted to the churns, which are huge affairs revolving by machinery, and which turn out from 600 to 750 pounds of butter apiece in fifty minutes. When the butter is taken from the churn it is worked by machinery, the only hand process in its whole course of treatment being its packing into tubs ready for market.

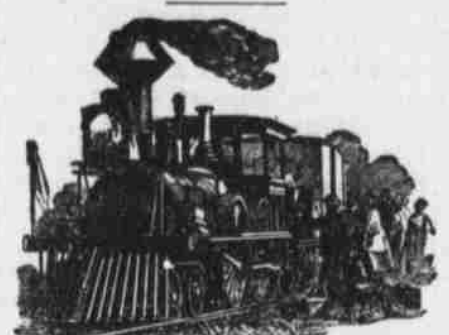

THE native newspapers of Japan are lamenting the decay of good manners among newly educated Japanese girls. They assert that under systems of education brought from foreign lands the usages of female life have one by one been abandoned, and the modern girl, in her attempts to imitate foreign manners, has almost transformed herself into a man. They say that pupils in the female schools at Tokio of good families live alone in lodging-houses, often walk untended in the streets after dark, and groups of five or six of them may be seen playing cards at tea houses. The *Japan Mail*, commenting upon these complaints, says that it is a subject for regret that female schools conducted on Western lines should attempt to enforce a new code of morals among the natives.

Huntington Herald.—The C. and O. trains recently vestibuled on the Lexington Division will soon be electric lighted. They are running through to Louisville, and will not run to Cincinnati as before stated. Cholera.

When properly treated as soon as the first symptoms appear, cholera can nearly always be cured. The patient should go immediately to bed and remain as quiet as possible. Send for a physician, but while awaiting his arrival take Chamberlain's Colic, Cholera and Diarrhoea Remedy in double doses after each operation of the bowels more than natural. If there is severe pain or cramps, take it in double doses every fifteen minutes until relieved. This Remedy has been used with great success in seven epidemics of dysentery that were almost as severe and dangerous as cholera, and if used as directed a cure is almost certain. Every family should have a 50 cent bottle at hand ready for instant use. After the disease is under control castor oil must be taken to cleanse the system. No other physic or substitute will do in place of castor oil. For sale by Power & Reynolds, Druggists.

The Hello and the Halo.

New York World.—Gladstone seems anxious to crown his declining years with a lot of excitement. He is going to have a telephone put in his house at Hawarden so that Sir Vernon Harcourt can call him up if anybody is trying to scuttle the ship of state, or the Queen's butler develops a sudden and unexpected case of collywobles.

The Grand Old Man is over four score years, and it is too late in life for him to start in to cultivate his "Hello!" It takes a flexible, well-modulated voice to coax "Central" into furnishing a connection that will not have a burr on it and buzz around the base of the brain like a blue-bottle fly lost in the interior of a bass-fiddle. It will be pathetic, it might be said heartrending, to listen to the poor old Premier throwing his timbre into the telephone in the expectation of falling into some sort of coherent conversation with it. How he will plead at first for a few fluent remarks from the machine, and then how he will howl and do a Comanche dance and spill burning words in pyrotechnic profusion when his appeal to somebody to "get off the wire" passes unheeded!

It is really cruel, not to say criminal, to let the Grand Old Man have a telephone all to himself at this late day. It will imperil his glorious reputation and nibble the spiritual benefits of that two or three mile walk he takes to church every Sunday morning. Better that the ship of state went to the bottom and that the Queen's butler's collywobles spread to the entire royal household than that the luster of the present peerless Premier should be dimmed by a thingamajig that nine times out of ten does not talk any clearer than a boy with a florid folding stutter. We are sorry for Gladstone. The hello will do serious damage to the old man's halo.

GEORGETOWN is soon to have electric lights.

FATAL WRECK.

Score of Lives Lost in a Collision on an English Road.

To Add to the Horror, the Carriages Caught Fire and Burned.

Some of the Bodies Taken Out of the Debris Were Burned Beyond Recognition.—In Some Cases the Jewelry Worn Was Melted by the Heat.

LONDON, Nov. 3.—An appalling railway accident occurred early Wednesday morning near Thirsk, in Yorkshire, by which twenty persons were killed and a large number injured.

The express train which leaves Edinburgh every evening for London was running at full speed as it approached Thirsk, when ahead of it appeared a heavily laden goods train. The engineer of the express train reversed his engine and put on the brakes, but the momentum of the heavy express was too great and it dashed into the goods train, making a most terrible wreck.

To add to the horror the carriages caught fire and were destroyed. A large number of persons from near-by places were soon at the scene and did everything possible to extricate the dead and injured. The burning cars greatly hampered their efforts, but had it not been for their bravery the loss of life would have been much greater.

The scene at the wreck was pitiable. Some of the bodies taken out of the debris had been burned beyond all semblance to humanity. The clothing had been destroyed and in some cases the jewelry worn had been melted by the intense heat. This will render the identification of the dead in some cases extremely difficult.

A wrecking train was dispatched to the scene as soon as the facts of the disaster became known. A number of physicians were carried to the wreck and they at once devoted themselves to relieving the sufferings of the injured.

Among those on board were the marquis of Tweeddale, who escaped unharmed, and the marquis of Huntley, a lord in waiting to Queen Victoria, who was bruised and had a thumb broken. Among the dead is Capt. Duncan McLeod, of the Forty-second Highlanders. Relief trains have been dispatched to the scene of the disaster.

Extensive Forest Fire.

JOHNSTOWN, Pa., Nov. 3.—One of the biggest and by all odds the most destructive forest fires ever known in this section is raging six miles above Sulphur springs, and farmers and stock-raisers will be heavy losers. The fire was started from a hunting camp seven miles from Waterford in Westmoreland county before noon last Friday. It has been growing steadily ever since, until at nightfall a long stretch on Laurel ridge was an unbroken mass of flames ten miles in extent. Back fires are being set and troops of men are being hurried to the hills to keep the fire out of the lowland settlements if possible. The ridges that are practically ablaze over the entire length are twenty-five miles long.

Atty-Gen. Miller Will Resign.

INDIANAPOLIS, Ind., Nov. 3.—Atty-Gen. Miller will retire from the cabinet soon after the election whether Harrison is re-elected or not. He has formed a law partnership in this city, his former home, and will move back here about the first of January. The friends of the attorney-general here say that official life has never been congenial to him. Furthermore, he feels that his law practice here will be much more lucrative than the official position. Mrs. Miller, too, it is said, has never been content with Washington life.

Heavy Haul of Smuggled Opium.

DETROIT, Mich., Nov. 3.—The United States customs department has seized a large amount of smuggled opium, valued at \$5,000, and arrested a man giving the name of J. A. Morrison. The stuff was brought across the river in two large trunks and was being checked at the Michigan Central depot when the seizure was made. The seizure is the most valued one since the taking of thirteen cases about four years ago, although in that case the one having it managed to give the officers the slip.

A Family Extorted.

NATCHEZ, Miss., Nov. 3.—News has reached here of the hanging of the son and daughter of John Hastings, the Negro who was jailed here Saturday for the murder of Zip Norment of Calhoun parish, La. Another son was killed while resisting arrest here at the time that Hastings was captured, making three of the family who have lost their lives, although none but the father was concerned in the murder of Norment.

Voss the Wreckee Found Dead.

NEW YORK, Nov. 3.—Ernest Voss, who stole \$300,000 marks from a savings bank at Vernon, Germany, in 1884, was recently found dead in his room in Hoboken. Voss was a director of the bank which he robbed. His theft wrecked it. Instead of imprisoning Voss he was adjudged insane and sent to an asylum. He escaped and disappeared. Voss was employed as editor of a New York German paper.

Adulterated Spices.

COLUMBUS, O., Nov. 3.—Dr. McNeal, state food and dairy commissioner, has received documentary evidence showing that New York wholesale houses are sending pepper bulls over the country for pepper adulteration. The hulls are offered retailers at 2 1/2-cent per pound. He has also received samples of oat and rice hulls to be used in adulterating spices, which are sold by a Cincinnati firm.

Lieut. Fred Schwatka Succeeded.

PORTLAND, Ore., Nov. 3.—About 3 o'clock Wednesday morning, Lieut. Frederick Schwatka, the famous arctic explorer, was picked up on First street in an unconscious condition. Beside him lay a bottle of laudanum. A patrol wagon was called and the lieutenant was removed to the police station, where he soon died. It was undoubtedly a case of suicide.
